

Interested in Graduate Studies?

Change the landscape of Physical Activity for people experiencing disability!

WHAT WE OFFER

Programs

Academic degrees:

- Master of Science (MSc) or Arts (MA)
- Doctorate (PhD)
- Post-doctoral fellows

Research

Design, conduct, and produce cutting-edge research & knowledge products in the areas of sport, exercise and play.

Mentorship

Refine your skills with dedicated, award-winning mentors who specialize in training and career development.

Partnerships

Collaborate with organizations and researchers who are on a mission to revolutionize physical activity for Canadians experiencing disability.

WHAT IS CDPP?

An alliance of university, public, private and government sector partners working together to enhance community participation among Canadians with physical, sensory and intellectual disabilities.

WE NEED YOU

The CDPP welcomes enthusiastic, creative and curious students to join our team working to enhance the quality of sport, exercise, and play for children and adults experiencing disability

OUR VISION

Physical activity is a quality experience for people experiencing disability in Canada.

THE BENEFITS

Students develop skills to meaningfully and ethically do partnered research, establishing disability and knowledge mobilization competencies in inclusive research, mentoring and leadership.
